**Re: Ex Parte Presentation
PS Docket No. 06-229**

Dear Ms. Dortch:

On Monday, February 6, 2012, Todd M. Early, Mike Barney, and Cynthia Wenzel Cole, representing the State of Texas – Department of Public Safety Communications Service (“Texas DPS”), Robert Cavazos and John T. Chaney representing Harris County ITC, and Gino Scribano representing Motorola Solutions (“MSI”) participated in a conference call with Jennifer Manner, Gene Fullano, Dr. Behzad Ghaffari, Dr. Rasoul Safavian, Robert Pavlak, Brian Hurley, and Yoon Chang by phone bridge, all of the Public Safety and Homeland Security Bureau (the “Bureau”).

The purpose of the session was to discuss the clarification questions posed by the Bureau in response to the *Texas Interoperability Showing, v9.0*, filed with the Commission on January 13, 2012 and the request for a Special Temporary Authority (“STA”).

During the conversation the following specific topics were discussed:

- Request for clarification regarding “technical roaming” aspects regarding interoperability and plans for User Equipment (UEs), eNodeB and access capabilities.
- Plans for achieving interoperability between Public Safety Enhanced Packet Cores (EPCs)
- Plans for testing, verifying, configuring and documenting interoperability and clarifying support for 3GPP standards-based interfaces and devices.
- Specific procedural approaches for submitted new filings, including corrections to recently submitted STA.

Respectfully submitted for the State of Texas,

/s/ Todd M. Early

Todd M. Early

Deputy Assistant Director

Law Enforcement Support Division

Public Safety Communications Service

Texas Department of Public Safety
